EDUCATION

Kent State University, Honors College

December 2026

B.S. Computer Science — Cybersecurity Concentration, Mathematics Minor

GPA: 3.72

Dean's List, President's List | Outstanding Academic Achievement Award, Student Leadership Awards 2026

Activities: HacKSU - Computer Science Club · Design Innovation Fellows Program · Society of Women Engineers · ALD Honors Society

CERTIFICATIONS

CompTIA Security+ ce (SY0-701)

Issued July 2026

Industry-recognized certification validating expertise in network security, threat management, risk assessment, and compliance frameworks including NIST, ISO 27001, GDPR, HIPAA and PCI - DSS.

PROJECTS

Automated GRC Compliance Dashboard

GRC · Python · NIST CSF · ISO 27001 · HIPAA2026

- Built a Python-based compliance monitoring tool simulating the core Drata/Vanta workflow — reads control assessments against NIST CSF 2.0 (all 106 subcategories) and ISO 27001:2022 (all 93 Annex A controls), calculates compliance scores, identifies gaps, and generates PDF reports
- Produced a complete ISMS documentation package for a fictional HIPAA-regulated healthcare SaaS: 20-risk register with likelihood × impact scoring, gap assessment with remediation roadmap, and 3 security policies (Information Security, Access Control, Incident Response)
- Built a Streamlit web dashboard with KPI cards, compliance progress indicators, risk heat map, and severity-filtered risk table; includes automated PDF report generation

Secure Art Gallery Logging System

Secure Programming · C++17 · AES Encryption

- Designed a cryptographically secured C++17 audit log system featuring AES-256 encryption with SHA-256 key derivation, token-based authentication, file locking for concurrent access, and a state machine enforcing valid visitor transitions
- Developed a formal threat model addressing unauthorized access, resource injection, and invalid state transitions; implemented comprehensive input validation preventing buffer overflow, path traversal, and injection attacks; produced security architecture design document

PII Text Redactor

Data Privacy · Python · Flask

- Built a Flask web application that detects and redacts PII across 15+ categories (SSNs, passport numbers, credit cards, API keys, IP addresses) from TXT, PDF, DOCX, and PPTX files; implements format-preserving redaction with session-scoped file handling and no persistent storage of sensitive data

PROFESSIONAL EXPERIENCE

Web Communications Specialist | *Kent State University: Division of Research & Economic Development* May 2026 – Present

- Translated complex WCAG 2.1 accessibility guidelines into actionable remediation steps for non-technical department leadership; led accessibility review meetings across 7 research units and documented implementation steps, improving web content compliance across divisions
- Conducted accessibility audits using SiteImprove, identifying and prioritizing compliance gaps against WCAG standards

Student Researcher | *Kent State University: Office of Student Research*

January 2025 – Present

- Contributing to ongoing faculty research examining the role of emerging technologies in geopolitics; conduct systematic literature reviews across academic journals, policy documents, and reports, synthesizing findings into structured abstracts
- Conducted faculty-mentored research on privacy and security vulnerabilities in IoT and embedded systems; analyzed network traffic using Wireshark and NRF Sniffer to identify security weaknesses, performed device rooting and dynamic analysis to assess attack surfaces

National Cyber League | *ISACA*

November 2025

- Applied offensive security skills across real-world scenarios: vulnerability assessment, OSINT, web application exploitation, cryptography, password cracking, packet analysis, digital forensics, and enumeration techniques

Student Conduct Hearing Officer | *Office of Student Conduct, Kent State University*

August 2024 – Present

- Reviewed formal conduct cases by examining evidence, applying university policy standards, and issuing written decisions — developing directly transferable skills in policy interpretation, evidence-based decision making, procedural compliance, confidentiality, and formal documentation

STUDENT LEADERSHIP & INVOLVEMENT

Events Coordinator | *HacKSU Computer Science Club*

May 2026 – Present

- Managed event logistics for hackathons and CTF competitions; contributed to sponsor outreach and secured funding; delivered peer-to-peer learning sessions on technical topics

President | *International Student Council*

August 2025 – May 2026

- Led executive board of 5 members; secured \$5,000 in competitive funding through formal pitch presentation; organized high-impact events attracting 500+ attendees; accepted “Entertainment Program” and “Global Impact Program” awards

Events Coordinator | *Society of Women Engineers*

August 2025 – May 2026

- Organized professional development workshops, guest speaker events, and career preparation programs; coordinated fundraising initiatives and attended collegiate conferences to advance career readiness for female STEM students

SKILLS

Frameworks & Standards: NIST CSF 2.0 · ISO 27001:2022 · HIPAA · SOC 2 · NIST SP 800-63B · NIST SP 800-53 · GDPR · PCI-DSS · GLBA

Security: Risk assessment & management · Control gap analysis · Policy writing · Threat modeling · Vulnerability assessment · Network traffic analysis · Packet analysis · IoT security research · AES-256 · SHA-256 · State machine design

Core Competencies: GRC documentation · Compliance auditing · Evidence collection · Policy interpretation · Technical writing · Cross-functional communication · Research synthesis · Data analysis

Programming: Python · C++ · JavaScript · SQL · HTML/CSS · Flask · Jinja2 · Bootstrap · MySQL · p5.js

Tools & Platforms: Wireshark · NRF Sniffer · Git/GitHub · Splunk (conceptual) · Qualys (conceptual) · Drata/Vanta (workflow) · Google Analytics · SiteImprove · Drupal CMS · RiseVision · pandas · matplotlib · Streamlit
